Chennai,Tamil Nadu-India

OBJECTIVE

Highly-Motivated individual with a strong desire to take on new challenges. Adept at working effectively unsupervised and quickly mastering new concepts. Seeking an entry-level role to apply knowledge and hands-on experience to contribute to innovative projects and real-world problem-solving. Quick learner with a strong work ethic and adaptability.

EXPERIENCE

- Company A** 
Job Title A
Month Year - Month Year
City, Country
 - Developed [specific achievement] achieving [specific metric] in [specific area]
 - Implemented [technology/method], enhancing [specific aspect] by [specific percentage]
 - Conducted analysis on [specific data], identifying [key findings]
 - Presented findings at [specific event], receiving [specific recognition]

EDUCATION

- Vellore Institute of Technology(VIT)**
B.Tech Electronics and Communication Engineering
GPA:
May 2025
Chennai, India
- Ideal Indian School**
Secondary Education
GPA: 84
May 2021
Doha, Qatar

PROJECTS

- IoT-Based Drinking Water Quality Monitoring System**
Tools: ESP32, TDS/EC Sensor, DS18B20 Sensor, OLED Display, Thingspeak IoT Platform
March 2024 - May 2024 
 - Developed an IoT-based system to monitor drinking water quality by measuring electrical conductivity and temperature, and implemented real-time data transmission to the Thingspeak platform by integrating ESP32 with TDS/EC and DS18B20 sensors.
 - Created a display for water quality parameters on an OLED screen, ensuring compliance with WHO standards for safe drinking water, and applied sensor integration techniques to analyze water quality parameters.
- Real-Time Prediction and Optimization of Solid Waste Generation Patterns**
Tools: Python, Google colab, Kaggle Datasets
August 2024 - November 2024 
 - Developed a predictive and optimization framework for urban solid waste management using SARIMA, XGBoost, and Meta-Regressor, achieving high accuracy in forecasting waste generation patterns and optimizing waste collection schedules.
 - Implemented real-time data processing and feature engineering using Kaggle datasets, handling large-scale time-series data to support decision-making and improve model performance with Optuna-based hyperparameter tuning.

SKILLS

- Programming Languages:** C programming, python
- Cloud Technologies:** AWS (Amazon Web Services)
- DevOps & Version Control:** Git, Github
- Mathematical & Statistical Tools:** Matlab-Simulink
- Other Tools & Technologies:** Visual Studio Code(VSC),Microsoft Office Suite (Word, PowerPoint)

CERTIFICATIONS

- AWS Certified Cloud Practitioner (AWS CP)**
February 2024
- AWS Certified Solutions Architect – Associate (SAA)**
October 2024
- MATLAB Onramp**
July 2023
